Scoring: Half-PPR; -2 INT, -2 lost fumble, +2 conversions. P90 is the simulated 90th percentile, not a maximum. DNP/LP are practice levels, not final OUT designations.

* ATD: Offensive rushing/receiving touchdown probability from v0.9 draws. Passing TDs do not count. Research output; R3 research probability preserved for comparison; experimental v2R adaptation and conviction are on page 2. No market edges.

Experimental adaptation, not recovered end-to-end production. R3 simulation ATD is the new upstream baseline; recovered v2R high-value formulas then apply. Current projected volume, Weeks 1-5 opportunity/defense data and documented role classes feed conviction. No second weather or TD-inventory multiplier is applied.

Conviction = Composite / 10 x adapted ATD probability x 100. Conviction ranks are comparative scores, not calibrated confidence or betting value. Slate ranks compare all 326 working players; input support describes evidence, not confidence. All prior player flags remain in the exports and clearance notes.

Historical high-value access may lag a changed role. Players flagged with no current-team HV history retain their R3 baseline ATD. Alternative cases are unweighted and each is ranked against a full slate with only that matchup replaced. The original environment model remains experimental.

SCENARIOS, CLEARANCE + COVERAGE

WEEK 6 | SEA vs DEN | Current-source review completed | Final-lock decisions remain time dependent

Unweighted case	Model scores	Total	Largest half-PPR changes vs. working case
Working reference	SEA 24.8 / DEN 22.9	47.7	Working projection shown on pages 1-2.

Current decisions and unresolved inputs

- JSN cleared on final report; Charbonnet OUT/PUP.
- Denver Surtain/Hufanga OUT, Moss questionable; Seattle Drake Thomas/Surratt OUT.
- Charles now practice squad; Velus active with no observed offensive role.
- Defensive personnel effects are flagged, not separately fitted into this environment.

Roster coverage decisions

24 projected. Nonselected QBs: Jarrett Stidham, Drew Lock, Sam Ehlinger, Jalen Milroe.

Role not modeled; numerical fields left blank: Velus Jones Jr., Nick Kallerup, Montorie Foster Jr, Dallen Bentley, Robert Henry Jr..

Conditional exclusions: None. A zero applies only to the executed exclusion case. Practice-window and practice-squad players need activation/elevation plus a supported role.

The obsolete JSN-out injury case is retired from this pack; the original R2 archive preserves it. Charles is on the practice squad and requires an elevation.
